

Harvoni®

(ledipasvir/sofosbuvir tablets)

What is Harvoni®?

- Harvoni® is a prescription medication used for the treatment of hepatitis C virus. Harvoni® is a combination of two medications in one tablet.

How should I take Harvoni®?

- Take 1 tablet of Harvoni® once daily, usually in the morning.
- You may take this medication with or without food.
- Your doctor will tell you how long you should take Harvoni® to cure your hepatitis C virus.

What should I do if I miss a dose of Harvoni®?

- If you forget to take a dose of Harvoni®, take your dose as soon as you remember on the same day. Do not take two tablets of Harvoni® at the same time. Take your next dose at your regular time the next day.

Are there any side effects from Harvoni®?

The most common side effects are headache and tiredness.

**Tiredness**

Tips:

- Do your hardest chores when you have the most energy
- Take short naps—20 minutes or less, and not close to bedtime

**Headache**

Tips:

- Drink water. Limit coffee, tea, and soda with caffeine
