Dear provider,

Many insurance companies are requiring extensive documentation be provided for approval of IVIG. Although some prior authorization forms require more than others, we ask that you please be sure to provide the following documentation for each new IVIG referral to ensure your patient's PA gets completed as quickly as possible:

- Original IVIG prescription (including dose, frequency, length of infusion, refills, hydration)
- Premedication prescription (if applicable)
- Patient demographics
- Patient's allergies, height and weight
- Insurance coverage information (copy of all insurance cards, front and back) and social security number
- Diagnosis and ICD-10 code
- Recent progress note including diagnosis, patient's past medical history and medications
- Lab work and diagnostic testing pertinent to diagnosis
- Nursing request if required

Sincerely,

Kings Pharmacy
